

## UCS Quasar L Chain Winder

This heavy duty chain winder features a strong, stainless steel, double link chain that exits from the centre of the casing.

- The Quasar L chain winder is housed in a narrow line section – 37 mm x 72 mm
- Available with 3 different strokes 600 mm, 750 mm or 1000 mm (750 mm and 1000 mm are only for bottom hung windows)
- The chain winder comes with 1.5m of cable and pivot brackets as standard
- Available in anotec silver grey (ASG) powdercoat finish – with black and white available on a special indent

- Suitable for installation on Smoke and Heat Extraction Systems.
- Available ex stock in 24 VDC and 240 VAC as special indent.
- Operation can be via the occupant using a simple wall mounted switch, the full range of Arens Ventilation Control Panels or Building Management System.

If the window is greater than 1200mm wide we recommend the use of the UCS Vega Synchro Chain Winder (with built in synchronisers). This will allow for two points of attachment to prevent being and twisting of frames and meet manufacturer recommendations.

### Option

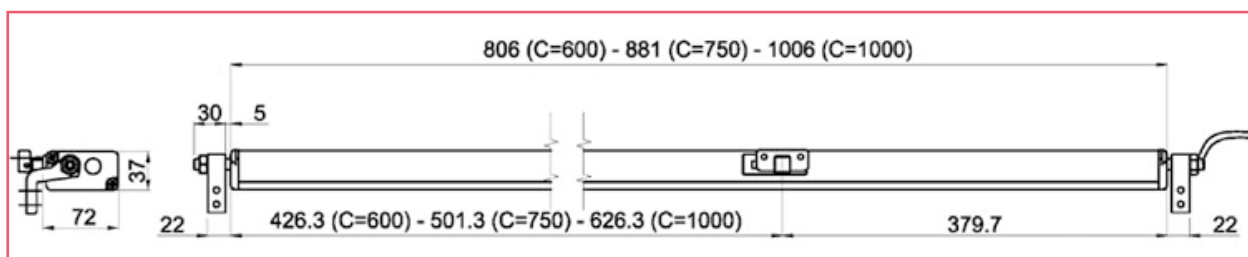

The Quasar L DC F-Signal is available with open and closed feedback signal (free potential, maintained contact), which is activated by the current limit 

## Technical Specifications

<b>Voltage</b>	24 VDC $\pm$ 10%
<b>Electrical connection</b>	DC 2 Wire
<b>Operation</b>	Polarity inversion
<b>Stroke</b>	600, 700 or 1000 mm
<b>Force</b>	300 N 600 mm, 150 N 750 mm, 100 N 1000 mm
<b>Speed</b>	~15 mm/s
<b>Max. current absorption</b>	0.9 A
<b>Parallel connection</b>	Yes
<b>Limit stop</b>	Electronic
<b>Safety stop</b>	Electronic
<b>Protection class</b>	IP 30

## Dimensions

## Application

- Ideal for domestic and commercial use
- May be used on windows of any level or in banks of windows
- When required chains may be shortened to meet Australian safety standards
- Integrates with all Arens Ventilation Controllers
- Support for C-Bus and other Building Management Systems
